

NOW HIRING:

ENGINEERING BRANCH OFFICE MANAGER

We are a fast-growing engineering firm with a friendly, collaborative staff. Our team was built upon the belief that **success** is best achieved by identifying each team member's **unique abilities** and allowing them to work within their strengths. What are your unique abilities?

We are looking for a qualified, charismatic and innovative engineer to step up and take the lead at a branch office opening in the Bend, Oregon area.

The ideal candidate will need vision and determination to effectively coordinate marketing and drive growth within a new market area. Launching a new office is an exciting challenge, but with the strength and resources of our main office in Missoula backing them every step of the way, success is well within reach.

PROFESSIONAL TRAITS THAT WE ARE LOOKING FOR:

- Self-starter
- Strong networking and team building skills
- Desire to stay ahead of the status quo
- Ability to take an engineering project from basic concept to completion
- Future focused with maximum results driven goals
- High personal standards for quality

RESPONSIBILITIES WILL INCLUDE:

- Perform professional engineering design and consultation services meeting JME's superior design standards
- Locate & Launch a branch office in Bend, Oregon or the surrounding area.
- Develop & implement both detailed one-year and three-year branch roadmaps with specific measurable goals.
- Grow customer base through marketing and networking outreach.

OTHER INFORMATION YOU SHOULD KNOW:

Qualified candidate **MUST** be a licensed PE in Mechanical, Electrical or Structural Engineering with **AT LEAST 6 years** experience working in their chosen field.
